KORG M1 le.Results for: howmanypelletservers I frequently use the phrase "I just don't get it" in conversation, usually meaning something like "It doesn't seem to make sense to me, but I am apparently a complete moron and I need to shut up and not even try to make any sense of this." This is my handy guide for asking questions, as answered by the awesome and incisive mind that is Neil DeGrasse Tyson. (Further reading: youtu.be/doCIHR5U4b4). Neal Stephenson used to be the bane of my existence. I would read books with the word "Neuromancer" in the title, and I would be like "What the fuck is this? There's no fucking way this is a book." Now, however, I realize that these ten-page snips are history's greatest works of fiction. Just be careful if you were planning to stay off the sauce for a while. The six smartest people to ever be nominated for a Nobel Prize in literature all got theirs in the same year — 1992 — and all were working on fiction. (Note: I had to cut out the part about Dave Barry and just focus on the five other heavy hitters.) It's worth reading the entire list, though, to see all of the wonderful, staggeringly smart, and utterly boring people that made it to literature's holy priesthood. I once spoke with a non-fiction writer who told me that his agent, upon first meeting him, was deeply struck by his youthful acne. She begged him to get rid of it, saying "the world just doesn't respond well to the gross, disfiguring idea of acne on a beautiful face." I'm sorry she didn't know him better, because that is one of the most beautiful things I've ever seen. One of the things that I love about my Mac is that it can do a lot of things — email, play games, and surf
